Great Stability: Upgraded E-box

Ice Circuit Refrigerant Cooling Technology

Midea's unique Ice Circuit refrigerant cooling technology can rapidly cool the PCB within 1 second, ensuring stable and powerful operation of the AC even during extreme high outdoor temperatures.

Diamond-like Carbon Coating

- 8% Tougher Surface
- Smoother Movement

8 Poles 12 Slots Inverter Motor

- More copper, faster cooling
- Bigger rotor, steady torque

Optimized Refrigerant Flow

- Reduce internal strain by 10%
- Boost thermal transfer

Twin-rotary Compressor

- Stable rotation, Less vibration, more reliability

*All of the above functions are optional items. Please consult the technical support for product adaptation according to the actual situation in your region.

Turbojet Engine System

The Midea Turbojet Engine System has revolutionized the core structure of the split air conditioner. It provides not only faster cooling but also a more agreeable and comfortable experience for users, all while maintaining excellent energy efficiency.

Optional

TU1 Corrosion-Resistance Copper Tube

70% less impurities than ordinary tubes.

Compared with the ordinary tubes, TU1 reduces the impurity content, and its corrosion resistance and thermal conductivity are improved.

TU1

Fewer Impurities & Better Consistency

Optional

Silver Shield Anti-corrosive Coating

Both sides of the evaporator are coated with "environmentally friendly polymer coating & technological baking method" to prevent the copper pipe from being polluted and corroded by air pollutants, making it more secure and durable.

GOLDEN COATING FIN

2.5X Corrosion Resistance than Blue Coated Fins

Midea's golden coating fin is more resistant in oxidation & corrosion than ordinary blue coated fin for a outdoor condenser to furnish a steadier and long-lasting working environment. It can also effectively prevent bacteria from breeding and spreading so as to extend the AC's lifespan.

AUTO DEDUSTING

When the AC is turned off, the fan blade of the outdoor unit will automatically rotate in reverse to get rid of the accumulated sand and dust, ensuring the AC is clean and operates well in any environment.

Smart Wireless Control Wherever You Are

Simply download the SmartHome app to control your air conditioner at anytime and from anywhere for ultimate convenience and peace of mind.

Easy to use

Smart Control

Heat Guard

Concerned about appliance and furniture damage from extreme heat while you're away?

Midea's 'Heat Guard' feature automatically activates your AC when room temperatures rise too high. Simply set your desired trigger temperature in the app for complete peace of mind.

Group Control

When you need to synchronize multiple ACs in the account to the same settings. You can use 'Group Control' to turn multiple ACs on or off with a single click.

Additionally, switching modes or performing other basic controls is also supported with just one click.

Location Based Services (LBS)

This smart AC automatically turns on or off based on your location detection, activating before you arrive or deactivating when you leave. The detection range is adjustable from 100m to 15km, with an option to disable location tracking for manual operation.

Easy To Install Pull-down Structure
